Experience

Designer - Rumpl

03/2021 - Present

As a designer for Rumpl, I work alongside the marketing team and collaborate with our other designers to brainstorm and problem solve to create quality and compelling marketing assets across various mediums, while multitasking and staying organized to meet deadlines. Additionally, I am responsible to present finished creatives to both internal teams and business partners.

Freelance Graphic Designer & Illustrator

01/2018 - Present

As a freelance designer, I am in regular communication with clients, often designing for several at a time. The work requires independent problem-solving and involves a variety of creative tasks, such as website design and production, logo design, marketing flyers, and branding.

Graphic Designer - *Design Creatifs* (Contract)

12/2020 - 03/2021

I was responsible to work independently to problem solve and design a variety of both digital and print marketing materials. The projects ranged from printed single-flyer ads to full campaign digital ads for large-scale events.

Graphic Designer - *Zero Operator LLC* (Contract)

06/2020 - 03/2021

I was responsible to work independently to problem solve and design digital marketing materials for the company's clients across the country—such as Banfield Pet Hospital & Foundation—helping to grow their different social media platforms employing both still graphics and animation.

Graphic & Website Designer - *Creative Market & Design* (Contract)

06/2020 - 03/2021

I was responsible to work independently to problem solve and design print and digital material for marketing purposes and to build and design websites for the company's clients.
